

# Mission > Vision > Values

## Mission Statement:

To be a customer-first, services-led, results-driven organization that brings an integrated approach and proven methodologies to help customers modernize their IT landscape for transformative results.

## Vision Statement:

To be the market-leading, global partner of choice for our customers' investments in IT solutions, services, and financing, by delivering differentiated value along with a best-in-class customer experience.

## Values

- + We are accountable and responsive, act ethically and in the best interest of our customers, our colleagues, our partners, our shareholders, and ourselves.
- + We listen, learn and embrace change. We deeply understand our customers' challenges, emerging technologies, and market trends, which helps us uphold our tradition of excellence and dedication.
- + We prioritize respectful communication and create an environment where everyone is treated with dignity and respect.
- + We foster collaboration and teamwork, which thrive through diverse perspectives, both within our teams and through our interactions with customers.
- + We value the well-being of our employees, recognizing that a healthy work-life balance is pivotal to our collective success.
- + We embrace and support the communities that nurture us.
